Jean Berg and Rusty Rogue

Joan Schuler and Helen of Troy

Wherever they went the Arabs stamped their impress. When their blood was poured into that of the common stock of Europe, it was like pouring a rich dye into what before had been colorless or, to change the figure, a drop of attar of roses into scentless compound.

Their influence was so profound that it broke down, remolded and recreated whatever alien elements it was mixed with. - *John L. Hervey*
